

Glenny Wood Fact sheet

Scout Pioneering

Scout Pioneering is the original big build. Challenge yourself to build out of wood poles and rope a project that you could perhaps climb over, slide down, catapult an object, create a gateway... and much more.

Let your imagination work with your knotting, lashing and pioneering skills to build something spectacular

At Glenny Wood we have a fabulous range of poles from 3 feet to 12 feet in length and rope.

The poles and lots of blue rope are available in the pole store.

If you want to build something spectacular tells us your plans and we will see if we have the kit.

If you need advice / help just let us know.

Some ideas to get you thinking can be found at <https://scoutpioneering.com> or other websites

Don't forget the John Sweet book on Scout Pioneering. It's a few years old but really good.....

When finish please put everything back in it's right place in the pole store.

Risk Assessment - We have a draft to assist you in completing your assessment. This can be reviewed at <https://glennywood.org.uk/home/safety/risk-factsheets>

There is Hand gel, a pack of wipes and disposal bags provided with this activity. It is however recommended you also bring your own.
